Manager Chapman, of the Holyoke nine, telegraphed to a friend in this city that he refused yesterday to play off the tream with the Albanys of the day before, and that the umplre virtually stole the game from his club to save a defeat for Albany. That is the style of umpiring to be expected there. The only decent umpire they had was Mr. Finch, and he has been forced to resign to escape the edium of such a crowd. Clubs playing champlonship games in that city need not go there expecting a fair show, for if they do they will meet with a disappointment. Mr. Chapman sooms to forget that the Albany cinb's existence depends on their being champions. So if they cannot win they will try to buy it. The Troy club, another league team, will play here on the 26th and 29th lustants, playing in Baltimore in the meantime. Word was received from Harry Wright yesterday that he would bring the Destroit bers and provided with obtaining \$1.25 from Frank E. White, on the 6th of August

three of the championship series are to be played with them. If the Nationals should be fortunate enough to win all the games they could once more tan Albany on the shoulder and call time. But it would do no good. Albany don't want to play the Nationals any more. They have tried their metal and find

tion which the owners of the Asphalt works at the corner of Eieventh and B. Fourteenth office to abate the "nuisance" made a round of
the works yest relay. The owners are manimous in asserting that their works are not
nuisances, and are of the opinion that a wrong
impression has gone abroad as to the
kind of business carried on at their
works, as they use the refined asphaitum
anly, which gives out a very faint odor. It is
during the process of refining that the offensive and nuhealthy gases are thrown off, and
it is this kind of work which has been attributed to them. Col. Hoffman, whose works
are located at the corner Eleventh and B
streets, stated that they would be through
regular work before the time of grace runs
out, but will continue to do small jobs. He
did not think that they were included in the
"nuisances," as they used the refined asphaitum,
outly the greater portion of which is brought "nuisances," as they used the refined asphaltum, only the greater portion of which is brought to the works from the refinery in large bollers. They have used some refined asphaltum that came all the way from Trinidad in barrels. One party in his neighborhood had already got up a petition, which was signed by a number of persons, to have the "unisance" abated, but he got up a petition and circulated it in the neighborhood, and it was signed by a number of persons greatly in excess of the signers of the other petition. His petition declared that the works were not a "nuisance," and it was not the wish of the signers to have them removed. Mr. Mardock, of the workscorper of Fourteenth and B the signers to have them removed. Mr. Mardock, of the works-corner of Fourteenth and B
streets, says that he has a special permit to
carry on his business, which is not refining
asphaitum, and he does not intend to take any
motice of the order to abate the "muisance."
The authorities at the works corner of
Fifteenth and B streets state that
they would be through work to-day; therefore there was no necessity for them to take
any action in regard to the matter; but if they
had more work to do they would disregard the
notice to abate the nuisance, and would carry
on their business and would appose the order.
If necessary they would take the matter into
the courts, and would stop only when competical to do so by an an order from the court.
In order not to leave a wrong impression, it is
but proper to state that the firm only discontinues work on account of not having work to tinues work on account of not having work to lo, their contract being fulfilled. He also stated that they had a lease on the property

The Labor League is not satisfied with the manner the claims have been audited and settled. At the regular meeting of the League at the headquarters, No. 307 Missour: avenue, Mr. John Pope Hodnett, who presided, stated that owing to the negligence of Mr. Waiker, clerk in the Comptroller's office, various claims of the most meritorious kind had been disal-lowed, and that he believed that Mr. Waiker was in callusion with the contractors to hear was in collusion with the contractors to beat honest and substantial claimants, and that he National grounds yesterday afternoon to wit-ness the game between the Poughkeepsies, of New York, and the Nationals, yet the exhibi-tion by the rightness of the men to rise and denand an investigation it was the duty of the mon to rise and demand an investigation into Walker's conduct, Captain A. Virginia Justice.

MANCHESTER, VA., September 15, 1879. To the Editor of the National Republican: SIR: I hereby give you a sample of Virginia stice as administered in this ancient borugh by its ancient police justice. Some weeks ago two negroes, names forgotten, were brought before His Honor charged by two of heir own color with stealing watermelons from their patch, said patch being owned by them, along with two white men, viz., Johns and Robinson. Our police justice ordered the negroes to receive thirty-nine lashes each, which were duly administered. One week ago two white men, viz., Luther Pond and Abb Dowdy, were arraigned before the same tri-Dowdy, were arraigned before the same tri-bunal for stealing watermelons from the same parties. They were caught in the act, ad-mitted the theft by offering to pay the parties \$5, which was refused. Our police justice or-dered that they pay the costs of the prosecu-tion, but nary lash. So you see the difference between white and black meat. If the above is not believed, I can prove it by the record of the court. Deny it who dare.

Prudent Stock Speculations The Stock Exchange never presented such an admirable condition for profitable and rapid stock operations. There never have been before so many fortunes made by quick fluctuations and skillful manipulations. Careful and reasonable people only operate through the combination system of Messrs. Lawrence & Co., which enables those with large or small means to invest and realize hand some profits, which are divided pre-rate among the shareholders every thirty days. Newacombinations are constantly forming. From \$25 to \$10,000 tions are constantly forming. From \$25 to \$10.00 can be safely invested with splendld opportunities for quick profits. An Illinois grain dealer made \$13,23.44 ft two investments. A Michigan farmer invested \$50, which yielded \$433,14. He made by three reluvestments over \$3,000. A Wisconsin country merchant made \$1,23,16 in four combinations, and others have done equally as well. New explanatory circular, with "Unerring rules for success," mailed by Messrs. Lawrence & Co., Hankers, 57 Exchange Place, New York City.

to make money safely, easily and rapidly is now while the stock market offers so many splendid opportunities. The combination system has had un precented success, and brings good fortune to thou sands of shareholders in this and other countries sands of shareholders in this and other countries. Investments from \$25 to \$19,000 are thus consolidated into one yast capital, and operated by the best skill and experience, result in heavy profits which are divided among shareholders every month. A New Orleans cotion dealer made \$27, 649,18 in two months, A Baltimore merchant received an aggregate profit of \$9.642.04 from three combinations. A San Francisco mining agent made \$22,438,16 from four combinations, his first investment having them \$300. An Individual Inquiry of Every Reader. The opportunities occur for a fortune to every man, it is said, some day or another, but how seldon does a man really know the exact opportunity. The newspapers every now and then tell of some person who has drawn a hundred-thousand or a person who has drawn a hundred-thousand or a thirty-thousand dollar prize in the long-established Louisiana State Lottery, which is drawn on the second Tuesday in every month, at New Orleans, Ls. But does it ever strike the reader on realing about the lucky man that a similar good fortune might attend him if he were to send \$2 for the next, which is the 113th drawing to M. A. Bauphin, P. O. LUMBER - LUMBER

TO THE PUBLIC:

The burning of our Planing Mills and Lumber Yards, in Salisbury, Md. will not interfere with our business in this city, as our main supply comes from our mills in Virginia.

Having recently leased the yard of Messrs. Mohun & Sons and stocked the same, in addition to the Fugitt yard, we claim to have on hand the Largest Stock of Lumber ever offered and ale in this city.
